September 21 - 23, 2018

Kensington, MD.

Mediation Matters will hold a 20-hour Child Access Mediation Training workshop for professionals September 21 - 23 in Kensington, Maryland. This workshop is designed to provide both hands-on training and a clear framework to enable participants to work effectively with divorcing and unmarried parents who are struggling to parent their children at a difficult time in their relation. Past participants tell us that this is some of the best professional training they have ever received. We hope your experience will be the same.

### **Who should attend?**

The only prerequisite for this training is that you have already completed a forty-hour divorce or basic mediation training. This workshop is for people who would like to develop the skills needed to work with parents who are separating.

*“Well organized. You two are a great inspiration. Thanks for sharing your expertise.”*

**Janet Schilling, attorney, Easton**

### **What does this workshop include?**

This interactive workshop uses a wide range of formats including video, demonstrations, discussions, lecture, and simulations. The workshop, with a 350-page manual, covers the basic **content** areas of child access mediation. The training also focuses on the **skills** involved in becoming an effective mediator in parenting disputes. Some of the many components in this training include:

**A distinctive feature of this training is the use of videotapes for instruction, including tapes of actual mediations.** The workshop will include coached role-plays so that each participant can practice and integrate new skills.

A certificate of completion, suitable for framing, will be issued to you upon successful completion of and full attendance at the training course.

*“The strength of the program is the calm laid-back style of the mediators. The videos are awesome because it forces you to think out of the box.”*

**Tiffany Alston, former state delegate, Bowie**

### **Who are the faculty for the course?**

*“This workshop (child access) truly helped put video tapes and issues specific to child access and custody into perspective, differentiating it from the Basic/Divorce workshop. I especially appreciate gaining an enhanced understanding of my role as mediator, ie., conversation starter rather than problem solver.”*
